super meat shooter

I challenge anyone to play this one without a huge smile on their face. For anyone who likes cheesy 80s music, this song is an essential purchase. Great for beginners too.. Great space game which can be slightly scary. Especially when you're flying into the storms of Jupiter. You can actually watch the storms on planets and land on them.. I was pretty hyped for this game, then they made it a vr only game.. Great game, just be prepared to die! Alot!. Frontline is not quite an unappreciated classic, but it very nearly might be. It came very close to dethroning the Battlefield franchise, not so much in sales (which were disappointing) as in capability. While Dice fiddled with odd settings (Battlefield 2142) and playing catch-up to Call of Duty (Battlefield 3), Kaos studios worked on perfecting the formula that made the original Battlefield games so much fun.

With a mix of modern- and near-future combat, Frontline was both familiar and innovative. The use of remote-controlled drones was a great addition, and were tremendous fun to use. The shifting and eponymous frontline was also a great way to keep the action focused on a small part of a battlefield while still allowing huge maps. The gunplay was satisfying as well, requiring more skill and aiming than do the pray-n-spray combats of more modern FPS games.

Unfortunately, the game never quite caught on the way it should have, an issue not helped in the least by the developers putting so little support into the game post-release. These days, the multiplayer arenas are all but empty. The single-player was fun, if a bit shallow and too quickly over.. Among the oldest games in the Sherlock Holmes series, this is perhaps the most one closest to the spirit of the original books. A crime occurs and there is an obvious suspects that has the motive... but something doesn't fit. Go around the scenes and gather information that leads you towards solving the mystery. Collect clues, documents and testimonies and use them to find the correct answers to the questions that arise in relation to the crime.

This game is very good, especially considering it's a bit old now. Its stronger part is the gameplay, while graphics and UI design leave something to be desired. Also, there are a few parts (e.g. the forest part) where you may lose, without a checkpoint and no autosaves, which means that if you didn't save shortly before, you are screwed. There are some other minor annoyances such as having to remove the quickbar (can be done with a single button press), in order to go to the previous area or find a clue.

Although there are better options out there, this is a nice piece of game that you won't regret getting if you are out of detective games to play.

Somone spent 5 drunken minutes with a Unity game generator and put the game for sale up on Steam. If I had to sum up this game in one word that word would be **BROKEN**

IF I got 2 words it would be **BROKEN P.O.S.**

PURE GARBAGE AVOID THIS GAME

IF a friend gives you this game for free **UNFRIEND THEM!**. Why I can't buy this DLC twice. I think it worth more.. Don't waste your money.. Yes I've only played this very shortly but do you know when you play a game for that long and already know that its going to stay with you for **A LONG TIME**. Yup that's this kind of game. Its very hard to describe with words but I'll try. You are a dog/cat/nidhog/etc. trying to get your food from subway riders. So you go up behind them and bark. They drop their food or whatever they are holding. You can juggle them, with bottles it creates combos. If you eat the food before it hits the ground you build a different combo. **TWO COMBOS YOU BUILD APART FROM ONE ANOTHER**. Do you see where this is going? This game is incredibly complex in its system and that is just the very basics! Its gets a lot more complicated **AND I AM NOT EVEN HALF WAY THROUGH THE GAME!** So there is still a lot to come.

At it's core Russain Subway Dogs is an arcade game where everything effects every other thing. And its satisfying as **HELL**. So yes please buy and play this game, its worth it.

(**DID I MENTION THE CUTE PIXEL ART AND DOGGOS AND CATS AND BEARS! THAT BEAR IS REALLY GOOD! LOVE IT**). Too slow and kinda boring to be honest
